### HOW TO SCAN A QR CODE ON AN IPHONE

1. Open the Camera app on your iPhone.
2. Point your phone at the QR code to scan it. You don't have to fill the entire screen, but make sure that all four corners of the QR code are in view. Once your phone sees the code, a pop-up notification will appear.
3. Tap the notification at the top of your screen to pull up the associated content on your phone.

### HOW TO SCAN A QR CODE ON AN ANDROID PHONE

1. Press and hold the home button.
2. Then tap Lens.
3. Point your camera at the QR code.
4. Then tap the magnifying glass icon to scan the QR code.
5. Finally, tap the pop-up notification.

### FROM THE eEDITION

1. Click on the QR code. It will open a pop-up window that includes some blue hyperlinks (which may be below the large image at the top of the window).
2. Click on a blue hyperlink to open the related story in a new window or tab.
3. When you're finished reading, close the story to return to the edition.

## ABOUT TODAY'S PAPER

The Miami Herald has a new, reimagined approach to the Sunday and Wednesday newspapers that highlights important local issues as well as all the ways that South Florida is unique — from its culture to its food. For each edition, we explore a local topic in depth, pairing a richly reported main story with related content that you can use to navigate life in South Florida. Each package is boldly designed, augmenting the storytelling with photography and graphics.

### TELL US

Do you have a suggestion for a topic that we should explore deeper? Scan QR code to complete a form to share your ideas.

Our enhanced coverage also has more digital content, including explainers, extended digital video, audio, interactive maps, photos and archived content, accessible using QR codes. We have added 14 pages a week to the newspaper on these days. The ultimate goal is to enhance the experience for our loyal print readers. We have added all this and still give you all the latest local and national news at miamiherald.com.
